

## YOUR VISION BECOMES OUR MISSION

**TheMPACK Inc**, a public benefit corporation, d/b/a **TheMPACK Autonomous Global Network (TMAGN)**, is particularly interested in social impact for communities that have historically not been given access to opportunities within business, technology, and entrepreneurship. We believe that a more unified culture of wealth and ownership will reflect the actual diverse population not just of America, but the world as a whole. Underrepresented community entrepreneurs such as women and people of color need access to capital, networks, and tech talent/tech co-founders (example: former Google Developers). This we believe will assist with the need for a more cooperative business, technology, and entrepreneurship world.

What is the problem that TheMPACK Inc solves? We provide solutions to the problems stated above. We develop, collaborate, and partner with underrepresented business, and tech professionals, as well as entrepreneurs dedicated to social impact. TheMPACK Inc serves as an accelerator for our diverse clients, and in order to implement and propel our mission we offer the following three (3) key elements: Business Coaching/Development, Network Connections, including human capital (business & tech talent), as well as Sponsorship/Capital. In addition...

**We intend to:**

- Provide low-income or underserved individuals or communities with beneficial products and services
- Promote economic opportunity for individuals or communities beyond the creation of jobs in the ordinary course of business
- Inspire people to make choices that aim to preserve the environment
- Improve human health
- Promote the arts, sciences, or advancement of knowledge
- Increase the flow of capital to entities with a public benefit purpose

TheMPACK Inc client base includes several non-profits, start-ups, and small-owned businesses. We are dedicated to growing and expanding not just our client base but our overall reach and MPACK communities... through our operating company, TheMPACK Group LLC, "a Business Architecture & Engineering Firm," we look to Partner with other Companies, Brands, and Venture Capitalist who have a similar vision for the real need for a cohesive business, tech, and entrepreneurship ecosystem. Companies like Google are stressing their mission to diversify tech. TheMPACK Inc is making sure that we are playing our part in the ecosystem!

ENDORISING DREAMERS SINCE 2005

## YOUR VISION BECOMES OUR MISSION

At TheMPACK Group we support Entrepreneurs (Businesses, Brands, Dreams, "BBD") who express a direct purpose to not only build a sustainable business system, but to simultaneously Create.Positive.Change within the Community. Furthermore, people from the said Community have a voice, and are given the opportunity to play a viable part and contribute to the operation, direction, and most importantly benefit in some way from the success of the Entrepreneurial Project, Event, and Venture.

**Questions** for your BBD Team, if seeking Funding and/or Advisement, "Architecture & Engineering," Management (AAEM) services from TheMPACK Group and Associated Agencies.

- Have you and/or your Partners established an Equity Structure for your growing business? (i.e.. Co- Founders each own 50%)
- Do you and/or your Partners have a business lawyer or any other legal support?
- If you had to name only one aspect of "Support" you are seeking to make your Business, Brand, or Dream thrive... what would you be specifically asking for?

In general and simplest terms we can:

- **Invest** (AAEM) Time, Resources, and Money by providing the BBD with full services from all branches of the Public Benefit Corporation including becoming Equitable Stakeholders in the BBD (i.e.. owning a percentage ranging from 10%-50%)
- **Support** (coach) the BBD by providing advisement and access to our Global Network of Members, as well as Associates, whose expertise cover most sectors of International Business and Finance
- **Endorse** (sponsor) the BBD that is making an impact (MPACK) and positively influencing the community (think endorsement deal as a professional star athlete)
